NOTE Certified DMST 20 - types shall exclusively be equipped with high security locks according to EN 1300 which are listed both in the approved technical documentation and in the lock list ECB•S R01.

The types of the series DMST 20 have a weight of < 1,000 kg. In accordance with the technical documentation they therefore have to be equipped with an anchoring assembly including material.

The certification is only valid when they are used as staff-operated systems and for the deposits documented during the test.

The marking as ECB•S certified product, in compliance with this certificate, is only allowed with an original ECB•S certification mark as proof of conformity according to ISO/IEC 17065.
